Brush Tip Dispensing Needles

LS-DSP-114

Brush tip dispensing needles spread glues and greases as they are dispensed. Material flows through the tube into the bristles, so a single pass lays down a film instead of a bead.

Each tip has an aluminum tube with nylon bristles. Round heads come in 2, 4 and 6 mm widths and flat heads in 5 and 10 mm, at about 37 to 40 mm (1.46 to 1.5 in.) overall. A wide 18 mm round brush on a 1.5 mm ID tube is 78 mm (3.07 in.) long. Other brush widths are made to order.

SKU	LENGTH (MM)	LENGTH (IN)	MATERIAL
LS-DSP-114-2MM	37	1.46	Nylon brush + aluminum
LS-DSP-114-6MM	37	1.46	Nylon brush + aluminum
LS-DSP-114-5MM-FLAT	38	1.5	Nylon brush + aluminum
LS-DSP-114-4MM	38	1.5	Nylon brush + aluminum
LS-DSP-114-10MM-FLAT	38	1.5	Nylon brush + aluminum
LS-DSP-114-18MM	78	3.07	Nylon brush + aluminum
