Flexible Tapered Dispensing Needles

LS-DSP-105

Flexible tapered dispensing needles have a polypropylene cannula that bends along edges and around corners. With no metal tube, they will not scratch finished surfaces, and polypropylene resists clogging with cyanoacrylates. They can be trimmed to length on the line.

We list 14, 16, 18, 20, 22 and 25 gauge, with IDs from 0.25 to 1.3 mm, in 1/4, 1/2, 1 and 1.5 in. lengths. Hubs are color-coded by gauge. Sizes are cross-referenced to major-brand part numbers.

SKU	GAUGE	LENGTH (MM)	LENGTH (IN)	ID (MM)	OD (MM)	MATERIAL	COLOR
